God Bless Our New President

Our new President, Mr. Samuel R. Forester, has been elected into office. He is now in charge and I have stepped down from my position and might never return to it because of the old age of, - I am not saying. I am proud to present a friend and a chum, Mr. Forester. I hope God blesses him with many blessings, protects him, gives him wisdom, and happiness in what he does. So I will say please pray for our President. *God bless our new President.*

The Rose and Fir ASSE {Animalzanian Scientific Space Exploration}

They scanned Earth and found many interesting things about it which are mentioned in the *Space Explorer*. They did not enter the planet. The planet is inhabited by humans like the Riojas Family. There are also insects and animals too like we have here. They do not talk in our language, but in the language of animals. They do not talk. The land has trees, flowers, grass, and many plants. There a mountains and plains, canyons and cliffs, and many land forms. The weather has rain, wind, snow, frost ,sew, and hail. There are thunder storms, tornadoes, and hurricanes. There are also land areas that are hot and arid, cool and moist, hot and humid and COLD. The land is good. There are cities and metropolises. -Mr. John Hancock

I am Charles!

I am Sarah!

We have

noticed that people watch TV a lot.
The people like TV.
Do they believe it?

Sadly they do that. They [most not all] believe the TV to be true.

Hm... That sounds bad. Why do they do that?
Do they think they are telling them the truth?

They do. They
Believe every
Drop.

The news is **DON'T BELIEVE EVERYTHING THAT IS ON TV!**

This is Charles!

AND SARAH!

**Dew
Dew, like jewels
Bedewed on grass,
Crystals spun
Like beads on spider's strands.
Frosty stars
On cold winter's mornings.**

**Dew, on a rose,
On the newly blooming buds.
Crystal tears of God
To us.**

**Dewy misty mornings
Wet and springy grass
Springs beneath my toes,
As I sing of God's love.
Pausing to gaze in awe at
The painting of God
The picture of dew-covered land.
As the sun's beams wax in the east.**
